1. Executive summary

185 cases are open, of which **122** are past SLA and **10** at risk. **104** items rank Critical. Completed work met SLA in **55.8%** of cases with average turnaround of **78.6h** against **3.0h** of actual handling time, so most elapsed time is waiting, not working. 4 staff are overloaded while 13 are under-utilised. Automation could free an estimated **307.4h/week** (assumption-based, needs validation).

Immediate actions

• [Critical] Credit Risk overloaded: 494h open vs 140h weekly capacity (3.53x) → Cross-skill/redeploy under-used staff (S006, S016, S019) after skills check; consider temporary staffing or overtime

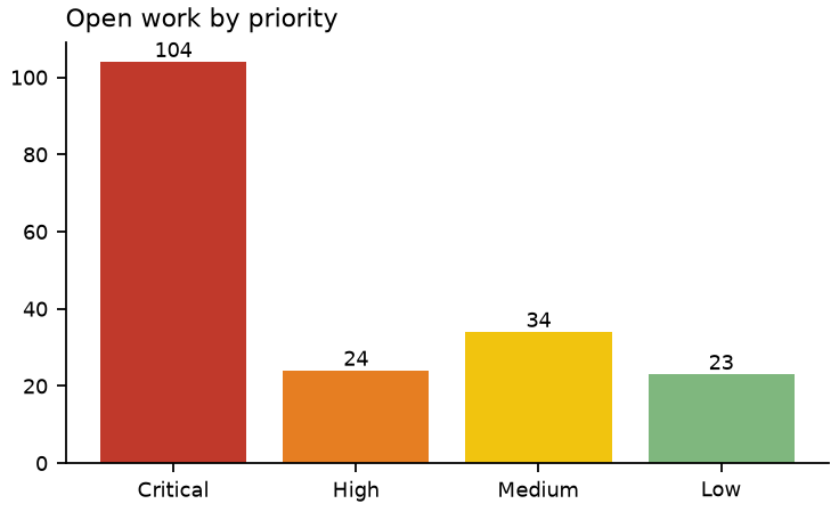

• [Critical] Credit Risk: 57 items stuck in 'Pending Approval' (median age 204h, 79% breached) → Delegate approval authority (within policy) or add a temporary approver; batch daily approval slots

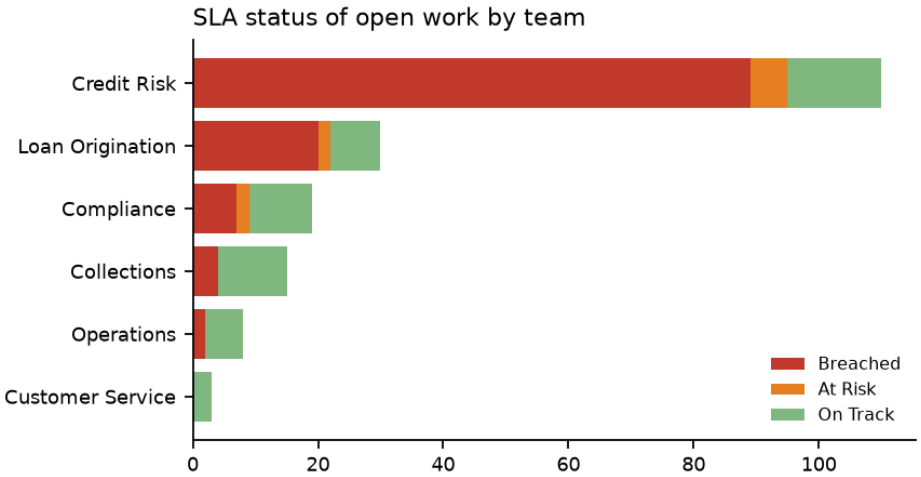

• [Critical] Loan Origination: 9 items stuck in 'Pending Approval' (median age 77h, 78% breached) → Delegate approval authority (within policy) or add a temporary approver; batch daily approval slots

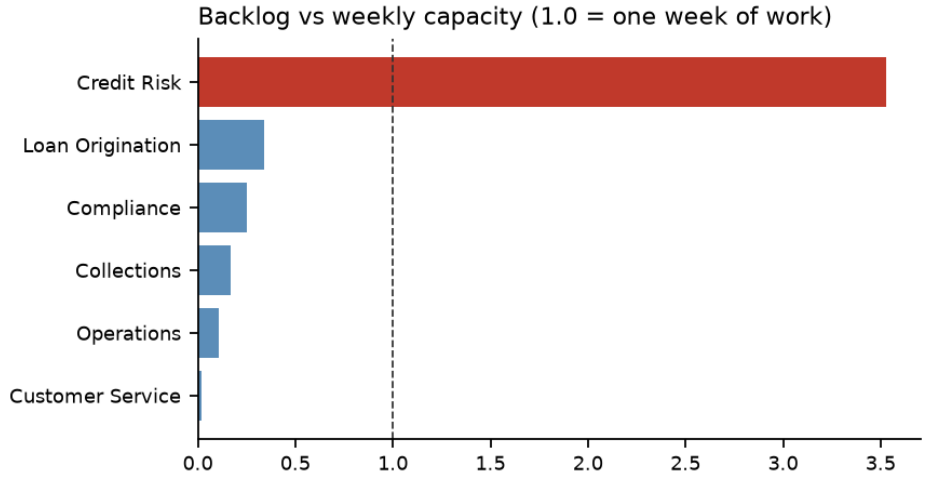

• [High] Noor Vos (S007, Credit Risk) at 4.86x capacity → Rebalance via reassignment table; consider auto-routing by capacity

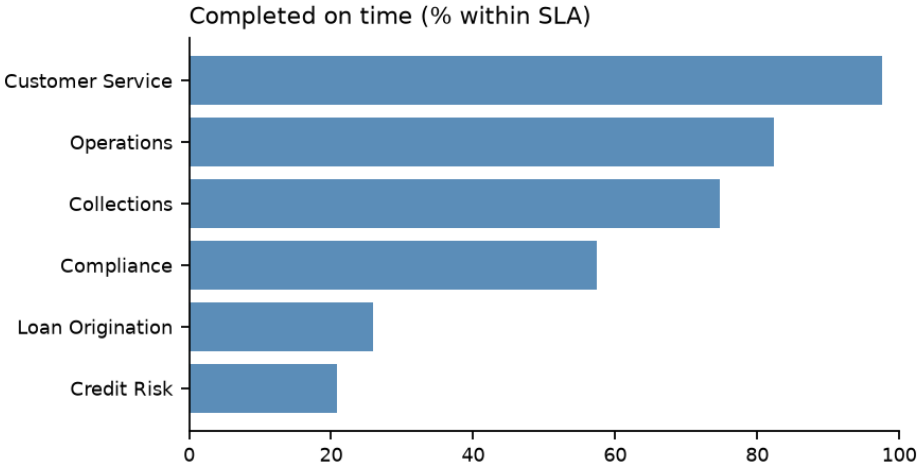

• [Critical] 5 AML reviews overdue → clear or escalate to Compliance head today

2. Workload and priorities

Priority score (0-100) = SLA urgency (max 40) + customer risk (25) + regulatory flag (20) + value (15) + escalation (5). Breached regulated items are always Critical. Top 15 by execution rank:
